Since 30 September 2008, there was no exposure to the US residential mortgage sector

Write downs are a mixture of AFS reserve movements, provisions and for the synthetic CDO's, the fair value of the embedded derivative liability

The Group does not purchase protection directly from any Monoline Insurer or from any other financial institution.

Commitments	-	-	-	-
TOTAL	253,4	364,3	462,6	455,8

Comments

- As at 31 March 2008 The LBO financing assets were classified as Available for Sale and held at fair value.
- On 1 July 2008 these assets were re-classified as Loans and Receivables and recorded at amortised cost from that date.
- This disclosure sets out the fair value that these assets would have been recorded at but for this re-classification
