With c.3,800 financial services employees in 40 countries across the world, we provide independent advice on M&A, strategy and financing, as well as investment and wealth management solutions to large institutions, families, individuals and governments

Our strategy

Remain focused

- Focus on our three core businesses
- Global Advisory, Wealth and Asset Management and Merchant Banking

Sustainability ambition

- Use our influence and expertise to support the sustainability transition of the global economy

Grow scale

- Grow our businesses organically and through targeted acquisitions
- Development of activity in existing and adjacent businesses, with a strong focus on cultural, strategic and financial fit

Create value

- Improve synergies between three core businesses
- Focus on long-term performance and value creation

Deliver strong returns

- Strong capital position
- Tight cost controls
- Focus on delivering consistent returns over time

Key drivers for building long-term value creation

Expand core businesses

- US organic investment in Global Advisory
- Ancillary advisory acquisitions
- Development of Investor advisory franchise
- Expand Merchant Banking platform outside Europe, notably in the US
- Bolt-on targeted European deals in Wealth Management

Grow private asset offering

- New initiatives and successor funds
- Make available to our Wealth & Asset Management clients

Human capital management

- Recruitment
- Retention
- Succession management

Strong capital position ...

Fully loaded solvency ratios around 20%

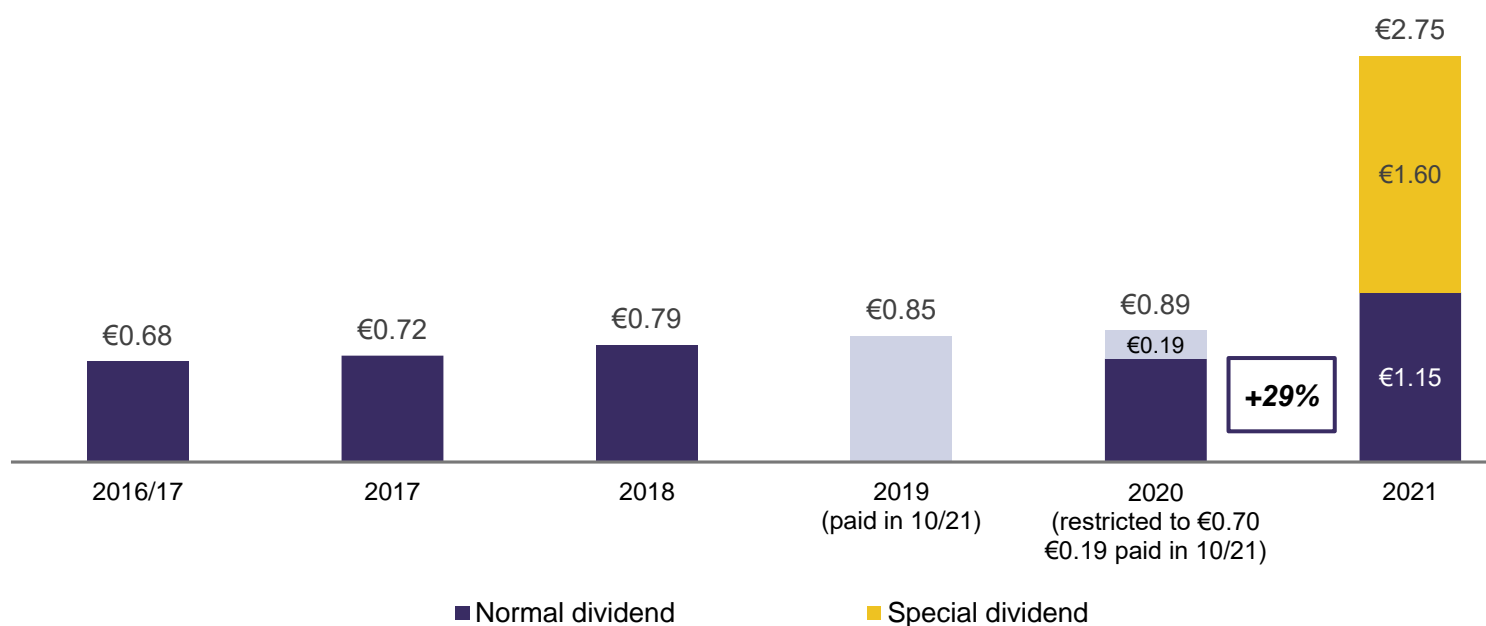

Strong capital position gives us the optionality around development opportunities and cash returns to shareholders

- Strong growth in capital reflecting profit, positive reserve movements on pensions and FX
- RWA's increase mainly reflecting credit risk relating to MB value accretion and increase of private client lending
- Acquisition of Banque Paris Bertrand in 2021 reduces Rothschild & Co's CET 1 ratio by c.1.0% and acquisition of remaining 75% of Redburn will reduce the CET 1 ratio by around c.0.7%
- As a family controlled group, capital is managed in a conservative way while allowing for future growth plans in MB, possible WAM acquisitions, and future regulatory requirements

Our progressive dividend policy

Dividend progression over 5 years

Steady increase of dividend over time

In addition to dividends shown, there were share buy backs of:

- 2018: €132m as part of Edmond de Rothschild deal
- 2021: €35m
- 2022: launch of the previously announced SBB of €70m, following ACPR approval

Our differentiators

Global scale

- Network of bankers in over 50 offices over 40 countries, pooling a wealth of local knowledge and sector expertise
- Advise on more transactions across both M&A and Financing than any other firm in our core markets, ranking #4 by number of completed deals
- This provides us with a unique insight that helps us advise all clients

Sector and market knowledge

- Our network of sector specialists provides our clients with a global picture of industry dynamics and the current strategies of their participants
- The scale and reach of our financing and investor advisory offering give us deeper insight into capital markets than any other adviser

Advice only

- Our advice is independent and unbiased, based on a long-term view to deliver each client's interests

We combine an advisory only platform with the scale and geographic reach of a global investment bank

Leading position: 6th by revenue and 4th by number of deals globally

Our response to equity market evolution

Private capital team and fully integrated investor engagement business

The rise of private capital

c.50% decline in LSE listed companies, and
c.36% decline in US listed companies

- Broad de-equitisation of listed market, since 1990s
- Companies take longer to list and are larger when they do
- Deep pools of private capital globally: sovereign wealth, pension fund, PE / VC and family office
- Significant capital deployment into growth equity and GP solutions

Rothschild & Co's Private capital business

GP solutions

Growth equity

Minority equity

- 1 Advise founders, corporates and financial sponsors on securing investment from the private markets for minority transactions
- 2 Advise growth companies on late stage fundraising through to exit via IPO or M&A
- 3 Advise Financial Sponsors, Venture and Growth funds on continuation vehicles, follow-on capital, partial liquidity and other GP solutions

ESG and activist agendas

90% of active funds integrate ESG considerations into investments decisions

- Significant opportunities driven by trends in equity markets include:
 - Greater stakeholder engagement
 - The rise of ESG
 - Continued activist activity

Rothschild & Co's Investor Advisory business

Shareholder engagement

ESG advisory

Activist defence

- 1 Advise Boards on a broad range of shareholder challenges on a stand-alone basis or combined within our other advisory activities
- 2 A fully integrated solution within Global Advisory, Investor Advisory provides activist defence, ESG advisory and assistance with driving engagement on a wide range of transactions
- 3 Enhances our product offering to and strengthens our relationships with clients as well as provides critical ESG input into all of our activities, M&A and Financing Advisory

Strategy of Global Advisory

1	Uphold and enhance our leading position in Europe	Maintain leading global position while taking advantage of significant growth opportunities
2	Grow market share in North America	
3	Deliver considered growth in Rest of World	
4	Develop strategic ancillary business areas	
5	Maximise synergies with other businesses within the Group

Strategy of Merchant Banking

1

Grow Assets under Management as a multi-asset manager

- Accelerate the roll out of core multiple products in Europe and the US
- Raise new funds targeted at specific opportunities, where we believe we have a distinct investment advantage

2

Pursue attractive risk reward propositions

- Focus on 3 core sectors “asset light” (healthcare, technology-enabled business services, data & software) with high visibility on future revenues and earnings
- Strong organic growth coupled with multiple opportunities for value creation
- Sustainable returns on invested capital with strong free cash flow generation

3

Continue to grow profitability for the group

- A mix of management fees, carry and capital gains
- Increasing share of recurring revenue from management fees and lowering “invested assets-to-AuM” ratio

A niche player in private assets in Europe and US with a growing contribution to group profits and return on capital

Note

¹ Mainly relates to the profit share (préciput) distributed to French partners

Compensation ratio target: low to mid 60%'s through the cycle

<i>(in €m)</i>	2017	2018	2019	2020	2021
Revenue excl MB investment performance	1,786	1,871	1,767	1,765	2,643
Total staff costs ¹	(1,211)	(1,225)	(1,176)	(1,207)	(1,590)
Adjusted for FX change					
Compensation ratio (INCLUDING deferred bonus accounting)	67.8%	65.5%	66.6%	68.4%	60.2%
	(0.3)%	1.5%	(0.2)%	(0.1)%	6.1%
Adjusted awarded Compensation ratio (EXCLUDING deferred bonus accounting)	67.5%	67.0%	66.4%	68.3%	66.3%
Headcount	3,502	3,633	3,559	3,675	3,941

- The compensation ratio is calculated by excluding MB investment performance revenue (carried interest and investment gains) on which staff costs are not payable
- Normally 50% of personnel costs within Rothschild & Co are discretionary, but the percentage is higher in 2021 due to the exceptional results

Note

¹ Total staff costs include profit share (préciput) paid to French Partners and effects of accounting for normal and, in 2021, special deferred bonuses over the period between award and vesting, rather than in the year in which the associated revenues have been booked, but exclude redundancy costs, revaluation of share-based employee liabilities and acquisition costs treated as employee compensation under IFRS

Note
¹ IFRS reconciliation mainly reflects: the treatment of profit share (préciput) paid to French partners as non-controlling interests; accounting for deferred bonuses over the period that they are earned; the application of IAS 19 for defined benefit pension schemes; adding back non-operating gains and losses booked in "net income/(expense) from other assets" or administrative expenses excluded from the management accounts; and reallocating cost of risk and certain operating income and expenses for presentational purposes
