Strategic report

Principal activities

N.M. Rothschild & Sons Limited ("NMR" or "the Company") is the main UK operating subsidiary of Rothschild & Co SCA ("R&Co"), the French private parent company. The principal activity of the Company is Global Advisory ("GA"), which focuses on providing advice in the areas of Strategic Advisory and M&A, Financing Advisory encompassing Debt Advisory, Restructuring and Equity Markets Solutions. Alongside our UK GA business, NMR owns 50.01% of Rothschild & Co Europe B.V. and 100% of Rothschild & Co Australia Limited, which are the holding companies for our continental European and Australian GA businesses. The remaining 49.99% of Rothschild & Co Europe B.V. is owned by Rothschild & Cie SCS.

Further information on the Rothschild & Co Group (the "R&Co Group" or "the Group") can be found on www.rothschildandco.com.

Strategic developments

NMR's strategy continues to be focused on developing its GA business, while also providing functional support for the R&Co Group's other activities.

During the year, our GA business delivered a strong performance supported by its leading market position with strong momentum in H2.

Over the course of 2024, the Company saw a 33% rise in M&A revenue compared to the prior year and in Financing Advisory, revenue was up 23%. This resulted in very strong full year performance with an increase in momentum and optimism in H2, which saw a growth in confidence.

On 4 January 2024, the R&Co Group gave contractual notice to the noteholders of its £125m perpetual fixed-rate subordinated 9 per cent notes (including the £75m NMR issuance) that it would redeem them on 15 February 2024 at par value. The R&Co Group then redeemed the £125 million perpetual fixed-rate notes (including the £75m NMR issuance) on 15 February 2024 at nominal value.

Results overview

Total operating income for the year to December 2024 was £501.8m, up 21.1% compared to full year 2023 (but only up 8.5% excluding the impact of the Recharges to group companies re-class).

Operating expenses of £397.0m were 22% higher than last year (but only up 6.0% excluding the impact of the Recharges to group companies re-class) with variable compensation up compared to 2023 largely due to the strong revenue performance. Non-personnel costs were lower than 2023, while the recharge of global support costs to Rothschild & Co entities was broadly flat year on year (for 2024 these recharges are reported in Recharges to group companies). Part of the compensation is paid by way of deferred bonuses which are normally paid up to 3 years after award on condition that the relevant staff remain in the employment of the R&Co Group. Accordingly, the costs of deferred bonuses are spread over the vesting period rather than expensed in the year of award.

	2024 £m	2023 £m	Variance %
Net GA fee income	423.1	336.8	25.6
Net fee income - other	-	(0.1)	100
Net interest income	7.5	9.0	(16.7)
Dividend income	17.5	65.7	(73.3)
Other income	1.6	3.0	(46.7)
Recharges to group companies	52.1	-	100
Total operating income	501.8	414.4	21.1
Impairments	(1.2)	(0.4)	(200.0)
Net operating income	500.6	413.9	20.9
Operating expenses (inc. depreciation)	(397.0)	(325.4)	(22.0)
Profit before tax	103.6	88.5	17.0
Tax	(23.7)	(9.1)	(160.4)
Profit after tax	79.9	79.4	0.6

Net GA Fee and commission income has increased by 25.6% from £336.8m in 2023 to £423.1m in 2024.

Net interest income includes £8.3m of IFRS16 related interest expense on funding of property leases but has benefitted from increased rates in 2024. Dividend income of £17.5m was largely

Strategic report

driven by distributions from Rothschild & Co Europe B.V.

As a result, profit before tax for the year to December 2024 was £103.6m, up £15.1m from the result in 2023 at £88.5m.

Balance sheet

The balance sheet at £1,204.8m was up £12.9m on the prior year. The Company's lending activities are now largely confined to supporting the wider R&Co Group through the use of surplus liquidity. At 31 December 2024 the balance sheet remained liquid, with liquid assets of £296.9m (in line with December 2023 at £299.8m), including loans with banks (primarily £110.0m with R&Co Group banks), UK Government debt securities and AAA rated money market funds.

Capital and dividends

Total equity was lower than the prior year at £715.2m, driven by the payment of £58m of dividends, of which £18m related to prior year's earnings, and the redemption of the £125m perpetual fixed-rate subordinated 9% notes (including the £75m NMR issuance), offset by actuarial gains related to the DB pension fund and a fair value uplift of the valuation of NMR's holding in TNCL "B" shares.

Governance and risk management

NMR is an integral part of the wider R&Co Group and, as such, the governance and risk management framework operates within the overall R&Co Group structure, whilst ensuring that the requirements of the Company are fully covered. The Committees of the Board and the key governance committees to which the NMR Board has delegated authority during the year are summarised on pages 12 to 14.

The Group Chief Risk Officer co-ordinates policy and promotes the development and maintenance of effective risk management procedures throughout the R&Co Group. Alongside this, the Group Internal Audit team reviews the internal control framework and reports its findings to the R&Co Group Audit Committee, as well as reporting NMR matters to the NMR Board.

Principal risks and uncertainties

The key risks and uncertainties to which the Company is exposed are the macroeconomic conditions in the markets in which we operate and changes in the regulatory environment. Currently, these include the potential impact on revenues of

a downturn in global M&A activity caused by geopolitical and / or macro-economic events.

The Company's principal risks are integrated with those of the R&Co Group and are managed on a Group-wide basis. These arise in relation to pension fund (note 22 to the accounts), regulatory, reputational, technology and other operational factors. For a business such as ours, loss of key personnel is a material risk which the Company seeks to mitigate through training, career development and remuneration policies. NMR's exposure to credit, liquidity and market risks continues to reduce and further information regarding financial risk management and use of financial instruments is disclosed in note 2 to the accounts.

Outlook

The momentum seen in H2 2024 is expected to continue into H1 2025, although the business remains alert to respond to the evolving global macro-economic and geopolitical landscapes. Overall, GA is optimistic regarding the performance outlook for the business in 2025.

S172 statement

The Board has a duty under s172 of the Companies Act 2006 to promote the success of the Company for the benefit of its members as a whole and in doing so, to have regard (amongst other matters) to:

- a) the likely consequences of any decision in the long term,
- b) the interests of the Company's employees,
- c) the need to foster the Company's business relationships with suppliers, clients and others,
- d) the impact of the Company's operations on the community and the environment,
- e) the desirability of the Company maintaining a reputation for high standards of business conduct, and
- f) the need to act fairly as between members of the Company.

During the year the Board has considered its duties under s172 and how it fulfils its obligations thereof in respect to the following key stakeholder groups:

Strategic report

Shareholders

The Board is appointed by the shareholders to oversee, govern and make decisions on their behalf and so is directly responsible for protecting and managing their interests in the Company, such as approving the payment of dividends by the Company. It does this by setting the strategies, policies and corporate governance structures described elsewhere in these financial statements.

As part of the wider R&Co Group, some of these responsibilities are managed at a group level and described in greater detail in the R&Co financial statements that are available on [Financial Results](#)

Employees and pension funds

The Company champions equal opportunities and inclusion throughout all aspects of the employee lifecycle, including but not limited to recruitment, annual appraisals and opportunities for promotion. NMR expects its employees to treat each other fairly and with respect, regardless of age, disability, gender identity, marital and civil partnership status, pregnancy and maternity, paternity, race, ethnicity, national, religion and belief and sexual orientation.

Both NMR and the wider R&Co Group comply with all laws regarding non-discrimination, harassment and victimisation and human rights in the jurisdictions in which it operates. The Company takes discrimination and harassment very seriously and will make every effort to provide a working environment free from harassment, intimidation, victimisation and discrimination, all of which it considers to be unacceptable behaviour.

In order to help create and maintain a balanced, inclusive and supportive environment, which enables all employees to achieve their personal and professional aspirations and also to provide long-term opportunities for growth, the Company has established a number of networks as part of a Balance & Inclusion initiative, including a Women's Network, LGBT Network, BAME Network and Family Network.

Numerous activities have again been undertaken throughout the year in order to both engage with and support employees, including:

- Regular seminars relating to family, mental, physical and financial wellbeing.
- Initiatives to support Black History Month.

- Initiatives to support International LGBT Pride Month.
- Events to support International Women's Day.
- The mental wellbeing tool, Unmind, which provides support to employees to boost wellbeing by focusing on areas such as sleep, relaxation, focus and energy.
- An alumni network to connect former employees of the R&Co Group.
- Agile working charter which outlines a Group-wide approach to help employees work in the most appropriate and effective way through a combination of office and home working.

The recruitment, training, career development and promotion of less able persons are fully and fairly considered having regard to the aptitudes and abilities of each individual. Efforts are made to enable employees who become less able during employment to continue their career with the Company and, if necessary, appropriate training is provided.

The Company offers training and development opportunities, including technical training, personal development and eLearning, to help employees reach their full potential and equip them to deliver the best possible solutions for our clients. The Learning & Development team builds and develops learning programmes in-house, as well as organising external courses for employees at all levels within the organisation.

The R&Co Group Health & Safety Policy, which is published on the R&Co Group's intranet, guides the Company's direction and approach to responsible health and safety management. To ensure a consistent approach to maintaining the health, safety and well-being of all persons who might be affected by the activities within an office, all locations commit to implementing the conformance standard by setting procedures listed within the Group Health & Safety requirements ("HSRs") prescribed in the Policy.

The Company provides support to current and former members of staff who are members of the defined benefit pension plans. The Company also offers a defined contribution scheme for those who are not members of the defined benefit scheme. These pension schemes are explained further in note 22 to the accounts.

Strategic report

Further details of staff policies and practices are contained in the “Human resources and social Clients

The Company’s clients are vital to the success of the business, and it is important that we deliver with integrity the best possible advice. We are aligned with, and focused on, our clients’ success, and care about their business. We know that long lasting relationships depend on this, and our market share is an important indicator of client satisfaction.

We also understand the impact that all clients can have on our business, for example from a reputational, corruption, tax-avoidance or money laundering perspective, and all new clients are subject to thorough due diligence before being accepted.

Suppliers

The Company has developed a responsible UK purchasing policy to include consideration of items such as environment, diversity, health and safety and the modern slave trade. Further details are contained in the “Corporate conduct” section of the R&Co financial statements.

We are committed to countering modern slavery in all its forms and we are taking proportionate measures to ensure that slavery and human trafficking are not taking place in our business or in our supply chains. This includes the formation of a Modern Slavery Working Group in the UK, which meets on an ad hoc basis and works throughout the year to consider any modern slavery risks and the ways in which we can seek to mitigate them on a pragmatic, risk-assessed basis. The Company publishes an annual statement describing the steps taken to combat modern slavery within their businesses. This joint statement (with Rothschild & Co Wealth Management UK Limited and Five Arrows Managers LLP) can be found on the R&Co website.

Equally, we expect suppliers to NMR to adhere to the same high standards of respect for the individual as we adhere to ourselves. If a supplier is considered a high risk from a modern slavery perspective, then we request their adherence to our Anti-Slavery Policy. In addition, we may also draft supplementary modern slavery protections into a contract with a supplier who operates in a sector which is assessed to be high risk.

information” section of the R&Co financial statements.

It is the Company’s intention to agree appropriate terms of payment with suppliers and to abide by those terms based on the timely submission of valid invoices. In the absence of agreed terms, the Company’s policy is to pay within 30 days from receipt of a valid invoice. The Company is required to report to HMRC twice a year on its payment practices and performance, including the average time taken to pay supplier invoices.

Regulators and tax authorities

The Company insists on the highest standards of professionalism and integrity from our employees who are expected to refrain from any conduct or behaviours that could be perceived unfavourably. This extends to dealing honestly and openly with regulators and tax authorities and in compliance with all relevant laws and regulations.

The Company adheres to the Senior Managers & Certification Regime, which is designed by the FCA to improve trust in financial services by making individuals accountable for their decisions.

In order to maintain these high standards of practice, the R&Co Group also publishes policies, procedures and guidance on the intranet for easy access by employees. This includes policies on financial crime compliance, whistleblowing, market abuse and inside information, and business line specific documents.

The Financial Conduct Authority’s new prudential regime for MiFID investment firms (the Investment Firms Prudential Regime, or “IFPR”) came into force on 1 January 2022. The Company is therefore subject to rules under IFPR which set out requirements for, amongst other things, regulatory capital, liquidity levels, regulatory reporting and supervision of investment firms. The Board is responsible for ensuring compliance with these new requirements.

The UK tax strategy is in line with the overall approach of the R&Co Group to taxation matters. The full strategy is published on the R&Co website.

The Company also ensures that employees undertake regular training through both mandatory online assessments and real-time training sessions and seminars, covering matters of professional competence, regulatory compliance and risk. These help to ensure that everyone has

Strategic report

a common understanding of the legal and regulatory requirements of the R&Co Group.

The wider community

Group Philanthropy

R&Co4Generations is R&Co's dedicated philanthropic foundation with a mission to empower future generations and protect our world. We collaborate with social purpose organisations working to address the effects of social and economic inequalities and climate change. We drive change by supporting initiatives and projects in the following areas:

- Champion education, skills and talents to help young people reach their potential
- Cultivate entrepreneurial mindsets in young people to create agents of social change
- Empower organisations tackling global challenges with innovative solutions
- Promote environmental action to protect and enhance our communities for future generations

R&Co4Generations' primary focus lies on supporting local charities that are operating in the geographies in which R&Co has a presence. In addition, each year R&Co4Generations will support a number of global flagship projects, providing an increased level of support to selected initiatives working across geographies on issues of global significance.

In supporting such initiatives R&Co4Generations aims to make full use of the tools R&Co has at its disposal, including:

- grant funding for innovative charities and social enterprises working in the chosen fields;
- targeted fundraising campaigns with company matching to support the projects;
- social impact investing and to support changemakers who are developing cutting-edge solutions to some of the most pressing social and environmental challenges the world faces;
- pro-bono advisory support where the R&Co Group can share its professional knowledge and skills to strengthen resilience and sustainability of high impact and promising organisations; and

The Company's approach to business includes a deeply held sense of responsibility to the environment and the communities in which we operate.

- targeted, purposeful volunteering programmes which allow colleagues to contribute directly and tangibly to causes which share the R&Co Group's objectives.

The R&Co4Generations fund is managed under the umbrella of the King Baudouin Foundation ("KBF"), a public utility foundation registered in Belgium. R&Co entities contribute to the fund either directly or via KBF's global network of subsidiaries and partner foundations.

The fund is governed by a Management Committee comprised of R&Co executives and independent subject matter experts. The Management Committee selects projects for support on the basis of objective criteria and tools specially designed to assist with this process. Selection criteria include alignment with the R&Co4Generations mission; likelihood of contributing to long term; sustainable change; scalability or replicability; employee engagement opportunities including fundraising, volunteering and pro-bono advisory.

Engaging employees is central to the R&Co4Generations' mission. All R&Co colleagues are encouraged to put forward their proposals for causes to support, and to get involved in selected projects through volunteering or by joining a pro-bono advisory team. Regular updates on project selection, activities and progress are shared with employees on the R&Co Group's intranet or via email.

Environment

R&Co has the long-term ambition to use its influence and expertise to help facilitate the sustainability transition of the global economy. This ambition has been clearly articulated as a key pillar of R&Co strategy.

The governance of sustainability matters, including addressing the impacts of climate change, follows R&Co's governance framework with clearly defined roles and responsibilities.

- The Group Sustainability Committee (GSC) is tasked to advise the R&Co Management Board on strategic transversal sustainability matters relevant

Strategic report

across R&Co and/or those that could affect the firm's sustainability position and reputation.

- The Supervisory Board is informed about sustainability developments on a regular basis, and ensures oversight of sustainability matters through specialist committees.

Please refer to the Group's 2024 sustainability statement for further information on governance of sustainability matters at Group level.

Recognising that climate-related physical and transition risks have the potential to destabilise the global economy, R&Co is committed to supporting and contributing to the transition to a low-carbon economy. This commitment has been one of the key priorities in R&Co's ESG framework since 2021, which is considering priorities in relation to sustainability-related risks, opportunities and impacts at every relevant level of our organisation.

In 2024, R&Co revised its analysis of, and conclusions on, the most material sustainability matters in its Double Materiality Assessment based on the definitions of financial materiality of risks and opportunities, and materiality of impact, based on the requirements outlined in the European Sustainability Reporting Standards. R&Co's financial materiality assessment concluded that, with regards to Global Advisory business activities, represented in the UK by NMR, the energy transition may lead to both:

- Inherent revenue opportunities in M&A and financing advisory, as clients undertake complex capital allocation and strategic decisions and substantial transition related growth opportunities in sectors such as renewable energy and low-carbon or clean technology
- Inherent risks for clients with stranded assets or those that are experiencing challenges in transitioning more carbon intensive business models and facing increased costs from regulatory requirements.

These competing factors present, if not managed, a material inherent revenue opportunity and / or risk for Global Advisory. The financial materiality assessment concluded that residually these risks

are sufficiently mitigated in the short-term via existing policies and procedures. For a more detailed description of the inherent climate-related risks, alongside actions in place aimed at mitigating these risks, please refer to the Group's 2024 sustainability statement.

Management of climate-related operational impacts

No material financial risks emerging from climate-related physical risks on R&Co's business operations have been identified due to the limited exposure of individual offices, including NMR offices in the UK, to the effects of extreme weather and water stress (considered in R&Co's Business Continuity assessment and planning programme) in the short-to medium term. No material financial risks related to transitional climate risks have been identified for operational environmental management, neither in the form of immediate expanded legal and compliance requirements, change in costs for energy and carbon credits, or reputational considerations related to direct environmental impact of the Group's operations.

As an office-based business that is not active in industrial activities, R&Co's direct operational impact on climate change and the environment is relatively low, including for NMR activities in the UK. However, R&Co recognises that operational environmental impacts are in its direct control and that taking accountability for the most material direct environmental impacts and taking tangible actions to mitigate such impacts will not only substantiate its strategic sustainability ambition, but can also help anticipate evolving regulatory requirements, realise cost saving opportunities related to improved efficiency and resource management, and influence the firm's ability to pursue identified financial opportunities related to the low-carbon transition for the business.

R&Co focuses on accurate and ongoing reporting on the most material operational GHG emission categories with clear accountability for progress via decarbonisation targets and plans for emissions within its direct control:

- Scope 1 & 2 GHG emissions – related to direct and indirect energy consumption for offices, company cars and the use of refrigerants in air conditioning units.

Strategic report

- Operational Scope 3 GHG emissions related to "Business travel" (GHG Protocol Scope 3, Category 6).

Overview market-based operational footprint for NMR UK – facts and figures¹

	2023	2024
Total GHG emissions (tCO ₂ e) – market-based	4,471	2,780
Total GHG emissions (tCO ₂ e) per FTE – market-based	4.86	3.16
Total GHG emissions (tCO ₂ e) – location-based	5,211	3,463
Scope 1 emissions (tCO ₂ e) ²	64	56
Scope 2 emissions (tCO ₂ e) – market-based ³	1	0
Scope 2 emissions (tCO ₂ e) – location-based	741	684
Scope 3 – Business travel emissions (after SAF purchase) (tCO ₂ e) ⁴	4,407	2,724
Scope 3 – Business travel emissions per FTE (after SAF purchase) (tCO ₂ e)	4.79	3.10
Reductions from SAF purchase ⁵	214	164
Total energy consumption (MWh) ⁶	3,554	3,301
% renewable energy		

- Total emissions, for the following offices in the UK: London New Court, London Capital House, London Adam Street, Manchester, Leeds, Birmingham.
- Scope 1 emissions sources include: natural gas, bioenergy, other fuel, company cars, refrigerant gas loss.
- Scope 2 emissions sources include: electricity consumption, heat and steam consumption, district cooling.
- Scope 3 business travel emissions sources include: flights, rail, taxis, hotel stays, car rentals and reimbursed vehicle trips. These emissions were calculated using the [latest UK BEIS emission factors \(2024\)](#).
- Calculation methodology for emissions reductions related to the purchase of Sustainable Aviation Fuels (SAF) is explained in the **Methodology** section below.
- Total energy consumption is from premises use, it does not include MWh from company-owned cars and vans.

In 2021, R&Co set a 30% reduction target for operational GHG emissions by 2030. Since then the business has seen a continued decrease in emissions post pandemic despite substantive business growth (-16% in FY 2023 vs 2021 baseline, which was more than half of the expected reduction of 30% by 2030).

In 2024, R&Co decided to update the climate transition plan for its operations and related targets, with regards to scope (focusing on emissions categories in our most direct control), timeframe (2023 as a new base year whilst maintaining 2030 as a target year) and nature of the target:

- Reduction of absolute Scope 1 & 2 energy-related emissions 42% by 2030, and
- Reduction of business-travel related emissions by 35% per FTE by 2030.

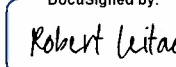

The new operational decarbonisation targets were designed in collaboration with each business line, including Global Advisory, considering their respective travel requirements and growth projections and agreed by the Group Sustainability Committee.

To support its efforts to reduce operational GHG emissions, R&Co has set an Internal Carbon Price (ICP), which creates a central budget that was charged to all business units annually based on 2024 actual emissions at €68 per ton of tCO₂e. This mechanism places a monetary value on operational GHG emissions and is a way to responsibly influence emissions within all business lines, including those related to travel.

In 2024, R&Co continued to work with internal and external experts on examining different decarbonisation levers and their carbon abatement potential, as the basis for clarifying its transition plan prioritising the most material intervention levers and enablers. For more information on the key levers for reducing R&Co's operational GHG emissions, please refer to the Group's 2024 sustainability Statement.

In addition, R&Co focuses on addressing its residual unavoidable emissions, through centrally compensating these emissions every year through the procurement of high-quality verifiable carbon credits.

By Order of the Board

Robert Leitão, Chief Executive Officer

N.M. Rothschild & Sons Limited

Registered number: 00925279

New Court, St Swithin's Lane, London EC4N 8AL

6 March 2025

Directors' Report

The Directors present their Directors' report and financial statements for the year ended 31 December 2024. An overview of the business and its performance is included in the strategic report.

Branches and representative offices overseas

The Company had a branch office during the year in Denmark.

Dividends

During the year to December 2024, the Directors declared and paid dividends totalling £58,200,000 (2023: £98,000,000). A dividend of £35,000,000 was approved by the Directors and will be paid in March 2025 (March 2024: £18,200,000).

Going concern

The Directors are satisfied that, at the time of approving the financial statements, there is a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future and, as a result, the Directors continue to adopt the going concern basis in preparing the financial statements.

Directors

The Directors who held office during the period were as follows:

- Nicholas Wrigley (Non-executive Chairman)
- Robert Leitão (Chief Executive Officer)
- Anthony de Rothschild (Non-executive)
- Sir Peter Estlin (Non-executive)
- Emma Griffin (Non-executive)
- Jessica Hanmer
- John King
- Nick Tassell

Directors' indemnity

The Company has provided qualifying third-party indemnities for the benefit of its Directors. These were provided during the period and remain in force at the date of this report.

Employee information and employment policy

Details of the Company's employment and corporate and social responsibility policies are included in the strategic report with further information provided in the R&Co Group's annual report which can be found at www.rothschildandco.com.

Political donations

No political donations were made, or political expenditure incurred during the period.

Auditor

Pursuant to section 487 of the Companies Act 2006, the auditor will be deemed to be re-appointed and KPMG LLP will therefore continue in office for the next financial year.

Audit Information

The Directors who held office at the date of approval of this report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditors are unaware, and each Director has taken all the steps that they ought to have taken as a Director to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Directors' responsibilities statement

The Directors are responsible for preparing the strategic report, the report of the Directors and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial period. Under that law they have elected to prepare the financial statements in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that year. In preparing

Directors' Report

these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable, relevant and reliable;
- state whether they have been prepared in accordance international accounting standards in conformity with the requirements of the Companies Act 2006;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable

them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

6 March 2025

Committees

NMR has constituted the following Committees of the Board, whose memberships generally comprise NMR Non-Executive Directors only or, in the case of the NMR Remuneration Committee, at least 50% of the membership is non-executive:

NMR Board Committees	
<p>NMR Nominations Committee</p> <p>This committee leads the review process for appointments to the Board and oversees the development of a diverse pipeline for succession to both the Board and wider senior management within NMR.</p>	<p>Membership</p> <p>Nicholas Wrigley (Chair), Anthony de Rothschild, Sir Peter Estlin, Emma Griffin</p>
<p>NMR Remuneration Committee</p> <p>This committee exercises competent and independent judgement on remuneration policies and practices and the incentives created for managing risk, capital and liquidity and is responsible for preparing decisions regarding remuneration, including decisions which have implications for the risk and risk management of the firm and which are to be taken by the NMR Board.</p>	<p>Membership</p> <p>Sir Peter Estlin (Chair), Robert Leitão</p>
<p>NMR Risk Committee</p> <p>This committee advises the Board on the firm's overall current and future risk appetite and risk strategy; and assists the Board in overseeing the implementation of that strategy by senior management.</p>	<p>Membership</p> <p>Sir Peter Estlin (Chair), Anthony de Rothschild, Emma Griffin, John King</p>

Committees

To facilitate the efficient and effective administration of the Company's affairs, certain functions and responsibilities have been delegated by the NMR Board to the following committees, a number of which cover the wider Rothschild & Co ("R&Co" or "the Group") Group. The terms of reference and membership of these committees are regularly reviewed.

R&Co Group Committees as at 31 December 2024	
<p>R&Co Management Board</p> <p>The Management Board assists the Executive Chairman to establish the R&Co Group's strategy and direction, supervise the accounting and financial information, define the governance and internal control framework of the Group and adopt corrective measures to remedy any deficiency, and determine the strategic capital of the Group and its allocation.</p>	<p>Membership</p> <p>Alexandre de Rothschild (Executive Chairman), Mark Crump, Javed Khan, Robert Leitão, François Pérol</p>
<p>R&Co Group Operations Committee</p> <p>The purpose of the Group Operations Committee is to assist the Chair to oversee day-to-day cross-divisional operational matters, improve the efficiency of all the Group's operations, ensure better coordination and harmonisation of operational matters across the businesses and the sharing of ideas, oversee cross-Divisional projects and initiatives, control support costs, and develop the Group's culture by allowing Group support functions and business COOs to work together on Group-wide issues in a consistent and constructive manner.</p>	<p>Membership</p> <p>Mark Crump (Chair), Paul Barry, Pierre Baudard, Frédérique Bonnell, Nicola Cashen, Lynsey Cross, Ben Cullen, Aldo di Rienzo, Tracey Feldman, Elsa Fraysse, David Gerke, Ben Grain, Adam Greenbury, Anne Imbach, Philippe Le Bourgeois, Caroline Nico, Emmanuelle Saudeau, Dani Webber</p>
<p>R&Co Group Assets and Liabilities Committee</p> <p>This committee is responsible for monitoring and managing all balance sheet, market and liquidity risks within the Group, overseeing all Treasury operations within the Group and having oversight of the Group Credit Committee.</p>	<p>Membership</p> <p>Mark Crump (Chair), Adam Greenbury (Deputy Chair), Peter Barbour, Christian Bouet, Christopher Coleman, Aldo di Rienzo, Fabrice Guillard, David Oxburgh</p>
<p>R&Co Group Credit Committee - Corporate Credit Sub-Committee</p> <p>This committee is responsible for the oversight of corporate lending exposures (including credit risk and the pricing of loans) by Group entities, including NMR's corporate loan book, the Group's counterparty limits, lending to Group companies and funds managed by the Group, and provisions for bad and doubtful debts. Exposures exceeding certain limits are subject to ratification by the Group Credit Committee.</p>	<p>Membership</p> <p>Christopher Coleman (Chair), Rosalyn Harper, John King, Ian Walker, Adam Greenbury (non-voting member),</p>
<p>New Client Acceptance Committee (UK & Rest of the World)</p> <p>This committee approves, from a reputational, money laundering and due diligence perspective, all new clients and reapproves all existing clients to be accepted by the Global Advisory ("GA") business, including NMR. All clients are then ratified by the UK GA Risk Committee, and certain reserved matters are referred for approval to the UK GA Risk Committee or to the Global GA Risk Committee.</p>	<p>Membership</p> <p>Jonathan Westcott (Chair), Jessica Dale, Adam Greenbury (Alternate Chair), Nicholas Ivey, Sam Murphy, Gavin Orde, Sabina Pennings, Axel Stafflage (Alternate Chair), Albrecht Stewen, Isabel Tatlow</p>

Committees

R&Co Supervisory Board Committees which have oversight responsibilities

R&Co Audit Committee

This committee reviews the Group's process of drawing up financial and non-financial information (and examines the main areas of risk or uncertainty and the key factors that have an impact on the audit approach), the statutory audit of the individual annual accounts and the consolidated accounts by the Statutory Auditors, and the independence and objectivity of the Statutory Auditors. It also reviews the effectiveness of the Group's internal control systems and internal audit.

Membership

Sir Peter Estlin (Chair), Véronique Weill, Groupe Industriel Marcel Dassault represented by Olivier Costa de Beauregard, Lord Mark Sedwill

R&Co Risk Committee

This committee advises on the overall current and future risk appetite and strategy of the Group, oversees the implementation of that strategy, reviews the material risks and total Group exposures to such risks, reviews the Group's broad guidelines relating to risk management and the effectiveness of the risk management systems and policies, and examines incentives provided by the remuneration policies and practices to ensure that they are consistent in the light of the risk, capital and liquidity, and likelihood and timing of expected earnings for entities.

Membership

Véronique Weill (Chair), Sir Peter Estlin, Groupe Industriel Marcel Dassault represented by Olivier Costa de Beauregard, Lord Mark Sedwill

R&Co Sustainability Committee

The Committee monitors issues relating to corporate, social and environmental responsibility so that the Group can best anticipate the opportunities, challenges and associated risks, and monitors the policies and objectives set, the procedures for identifying risks and preparing non-financial information.

Membership

Lucie Maurel-Aubert (Chair), Lord Mark Sedwill, Giammaria Giuliani, Helen Watson, Peugeot Invest Assets represented by Jean-Charles Douin

Independent Auditor's report to the members of N.M. Rothschild & Sons Limited

Opinion

We have audited the financial statements of N.M. Rothschild & Sons Limited (the "Company") for the year ended 31 December 2024 which comprise the income statement, statement of comprehensive income, balance sheet, statement of changes in equity, cash flow statement, and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2024 and of its profit for the year then ended;
- have been properly prepared in accordance with UK-adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The Directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the Directors' conclusions, we considered the inherent risks to the Company's business model and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the Directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Company will continue in operation.

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of Directors, internal audit and other heads of departments and inspection of policy documentation as to the Company's high-level policies and procedures to prevent and detect fraud, including the internal audit function, and the Company's channel for "whistleblowing", as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Reading Board minutes.

Independent Auditor's report to the members of N.M. Rothschild & Sons Limited

- Considering remuneration incentive schemes and performance targets for management; and
- Using analytical procedures to identify any unusual or unexpected relationships.

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit.

As required by auditing standards, we perform procedures to address the risk of management override of controls and the risk of fraudulent revenue recognition, in particular:

- the risk that management may be in a position to make inappropriate accounting entries; and
- The risk of bias in accounting estimates such as pension assets and investments, and the risk that Fee and Commission income is overstated through recording revenues in the wrong period.

We did not identify any additional fraud risks.

We performed procedures including identifying journal entries and other adjustments to test based on risk criteria and comparing the identified entries to supporting documentation. These included those posted and approved by the same user, those posted by infrequent users and any unusual debit-credit pairings identified.

Identifying and responding to risks of material misstatement related to compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, and through discussion with the Directors and other management (as required by auditing standards), and from inspection of the Company's regulatory and legal correspondence and discussed with the Directors and other management the policies and procedures regarding compliance with laws and regulations.

As the Company is regulated, our assessment of risks involved gaining an understanding of the control environment including the entity's procedures for complying with regulatory requirements.

We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation and taxation legislation, and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: data protection laws, anti-bribery, employment law, and certain aspects of company legislation recognising the financial and regulated nature of the Company's activities and its legal form. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the Directors and other management and inspection of regulatory and legal correspondence, if any. Therefore, if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Independent Auditor's report to the members of N.M. Rothschild & Sons Limited

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Strategic report and Directors' report

The Directors are responsible for the strategic report and the Directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the Directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge.

Based solely on that work:

- we have not identified material misstatements in the strategic report and the Directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006, we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 10 and 11, the Directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and

Independent Auditor's report to the members of N.M. Rothschild & Sons Limited

are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the financial statements

(forming part of the financial statements)

1 Summary of significant accounting policies

N.M. Rothschild & Sons Limited (the “Company” or “NMR”) is a private company limited by shares and incorporated in England and Wales. The Company’s registered office address is at New Court, St Swithin’s Lane, London, EC4N 8AL.

Developments in reporting standards and interpretations

Standards affecting the financial statements

There were no new standards or amendments to standards that have been applied in the financial statements for the year ended 31 December 2024.

New standards and interpretations

A number of new standards, amendments to standards and interpretations are effective for accounting periods ending after 31 December 2024 and therefore have not been applied in preparing these financial statements. The Company has reviewed these new standards to determine their effects on the Company’s financial reporting. None of these are expected to have a significant effect on the Company’s financial statements.

Basis of preparation

Functional and presentation currency

These financial statements are presented in sterling, which is the Company’s functional currency. All amounts have been rounded to the nearest thousand, unless otherwise indicated.

Measurement Convention

These financial statements have been prepared in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006 (adopted “IFRS”). The financial statements are prepared under the historical cost convention, except that financial assets held for trading or designated as fair value through profit or loss and all derivative contracts are stated at their fair value. Debt instruments are measured at FVOCI only when certain conditions are met and when not designated as at FVTPL.

The Company is exempt by virtue of s401 of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the Company as an individual undertaking and not about its Group.

The principal accounting policies set out below have been consistently applied in the presentation of the financial statements. Judgements made by the Directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed later in note 1.

Going concern

The Directors have continued to monitor the appropriateness of the going concern basis for the Company, both throughout the year and beyond the balance sheet date, for a period of at least 12 months.

Management has performed an assessment to determine whether there are any material uncertainties that could cast significant doubt on the ability of the Company to continue as a going concern; no significant issues have been noted. In reaching this conclusion, management considered:

- The financial impact of any uncertainty on the Company’s balance sheet;
- Severe but plausible downside scenarios as part of their assessment including scenarios with a significant reduction in revenues;
- The Company’s liquidity position based on current and projected cash resources; and

Notes to the financial statements

(forming part of the financial statements)

- The operational resilience of existing IT and infrastructure.

Based on the above assessment of the Company's financial position, the Directors have concluded that the Company has adequate resources to continue in operational existence for the foreseeable future (for a period of at least twelve months after the date that the financial statements are signed). Accordingly, they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Investments in subsidiary undertakings

Subsidiary undertakings are all entities which are controlled by the Company. The Company 'controls' an entity if it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Investments in subsidiary undertakings are carried at cost less any impairment losses.

Foreign exchange

Foreign currency transactions are accounted for at the exchange rates prevailing at the date of the transaction. Gains and losses resulting from the settlement of such transactions, and from the translation at period end exchange rates of monetary items that are denominated in foreign currencies, are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated at foreign exchange rates ruling at the dates when the fair value was determined.

Translation differences on equities classified as at fair value through profit or loss are reported as part of the fair value gain or loss in the income statement. Translation differences on equities classified as FVOCI are included in the fair value reserve in equity.

Derivative financial instruments

Derivatives are entered into for risk management purposes and are measured at fair value, with transaction costs recorded immediately in the income statement. Subsequent to initial recognition, changes in fair value are recognised in the income statement.

Fee and commission income

The Company earns fee and commission income from services provided to clients. Fee income from advisory and other services can be divided into two broad categories: fees earned from services that are provided over a period of time, which are recognised over the period in which the service is provided; and fees that are earned on completion of a significant act or on the occurrence of an event, such as the completion of a transaction, which are recognised when the act is completed or the event occurs.

Fees and commissions that are an integral part of a loan, and loan commitment fees for loans that are likely to be drawn down, are deferred (together with related direct costs) and recognised over the life of the loan as an adjustment to the effective interest rate.

Interest income and expense

Interest income and expense represents interest arising out of lending and borrowing activities, interest on related hedging transactions, interest on debt securities and finance charges on lease liabilities. Interest income and expense is recognised in the income statement using the effective interest rate method.

The effective interest rate is the rate that exactly discounts the estimated future cashflows of a financial instrument to its net carrying amount. It is used to calculate the amortised cost of a financial asset or liability and to allocate the interest over the relevant period (usually the expected life of the instrument). When calculating the effective interest rate, the Company considers all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes any

Notes to the financial statements (forming part of the financial statements)

premiums or discounts, as well as all fees and transaction costs that are an integral part of the financial asset.

Financial assets

The Company initially recognises loans and advances and deposits on the date on which they start. All other financial assets and liabilities are recognised on trade date.

On initial recognition financial assets are classified as measured at: amortised cost or fair value through other comprehensive income ("FVOCI") or fair value through profit and loss ("FVTPL").

Financial assets measured at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding.

For the purposes of this assessment "principal" is defined as the fair value of the financial asset on initial recognition. "Interest" is defined as consideration for the time value of money and the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amounts and timing of cash flows;
- prepayment and extension terms;
- leverage features;
- terms that limit the Company's claim to cash flows from specified assets; and
- features that modify consideration of the time value of money.

Subsequent measurement of financial assets measured at amortised cost, including interest, impairment and foreign exchange gains or losses, are recognised in the income statement.

Financial assets measured at fair value through other comprehensive income ("FVOCI")

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in other comprehensive income. This election is made on an investment-by-investment basis.

Notes to the financial statements (forming part of the financial statements)

Financial assets measured at fair value through profit and loss (“FVTPL”)

All other financial assets are classified as measured at FVTPL. Any gains or losses arising on disposal of these assets are recognised within the P&L.

Business model assessment

The Company makes an assessment of the business model in which a financial asset is held based on the way in which the business is managed, and information provided to management. The information considered includes:

- how the performance of the asset is evaluated and reported to management;
- the risks that affect the performance of the business model and how those risks are managed;
- how managers of the business are compensated; and
- the frequency and volume of historic and expected sales.

Offsetting

Financial assets and liabilities are offset, and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Impairment of financial assets

The Company recognises expected credit losses (“ECL”) for all financial assets recognised at amortised cost and for debt instruments that are measured at FVOCI. No impairment loss is recognised on equity investments.

ECLs are a probability-weighted estimate of credit losses and the Company measures it over a financial asset’s lifetime except for financial assets that are not credit-impaired at the reporting date and on which credit loss has not increased significantly since initial recognition, for which they are measured at 12-month ECL. ECL is estimated at the present value of all expected cash shortfalls compared to those due under the contract. For financial assets that are credit-impaired at the reporting date, the ECL is calculated as the difference between the gross carrying amount of the asset and the estimate of the present value of future cash flows.

Debt/equity classification

Under IFRS the critical feature in differentiating a debt instrument from an equity instrument is the existence of a contractual obligation of the Company to deliver cash (or another financial asset) to another entity. Where there is no such contractual obligation, the Company will classify the financial instrument as equity, otherwise it will be classified as a liability and carried at amortised cost. The terms of the perpetual debt instruments issued by the Company permit interest payments to be waived unless the Company has paid a dividend in the previous six months and are therefore considered to be equity.

Property, plant and equipment

All property, plant and equipment is stated at cost. Cost includes expenditure that is directly attributable to the acquisition of the asset including, in respect of leasehold improvements, costs incurred in preparing the property for occupation.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to write down the cost of assets to their residual values over their estimated useful lives, as follows:

Computer equipment	2-10 years
Cars	3-5 years
Fixtures and fittings	3-10 years

Notes to the financial statements (forming part of the financial statements)

Leasehold improvements 4-24 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Gains and losses on disposals are determined by comparing proceeds with carrying amounts. These gains and losses are recognised in the income statement.

Impairment of property, plant and equipment

At each balance sheet date, or more frequently where events or changes in circumstances dictate, property, plant and equipment is assessed for indications of impairment. If such indications are present, those assets are subject to an impairment review. If impaired, the carrying values of assets are written down by the amount of any impairment and the loss is recognised in the income statement in the period in which it occurs. A previously recognised impairment loss relating to a fixed asset may be reversed when a change in circumstances leads to a change in the estimates used to determine the fixed asset's recoverable amount. The carrying amount of the fixed asset is only increased up to the amount that it would have been had the original impairment not been recognised.

Right of use assets and lease liabilities

The Company recognises a right of use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date. The right of use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and the type of asset leased.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option; and
- Penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

As a result of the coronavirus pandemic, rent concessions have been granted to lessees, which may take a variety of forms, including payment holidays and deferral of lease payments. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. No such rent concessions have been granted to the Company.

When leases are acquired in a business combination, their accounting treatment is reset as if they were brand new leases as at the acquisition date in the financial statements of the acquirer.

Notes to the financial statements

(forming part of the financial statements)

Cash and cash equivalents

Cash and cash equivalents comprise cash and balances with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, including treasury bills and investments in money market funds.

Pensions

The Company's post-retirement benefit arrangements are described in note 22. The Company operates pension and other post-retirement benefit schemes, both funded and unfunded, of the defined benefit and defined contribution types. For defined contribution schemes, the contribution payable in respect of the accounting period is recognised in the income statement.

Re-measurement gains and losses in the defined benefit schemes are recognised outside the income statement and presented in the statement of comprehensive income. The amount recognised in the balance sheet in respect of defined benefit schemes is the difference, if any, between the present value of the defined benefit obligation at the balance sheet date and the fair value of the plan's assets.

Compensation schemes

The Company operates bonus schemes for the benefit of employees. The costs of such schemes are recognised in the income statement over the period in which the services are rendered that give rise to the obligation. Where the payment of a bonus is deferred until the end of a specified vesting period, the deferred amount is recognised in the income statement over the period up to the date of vesting.

The Company has entered into cash-settled share-based payment transactions as part of the long-term profit share schemes. The fair value of such awards is independently measured at the date the awards are made and re-measured at each reporting date. Such awards are recognised in the income statement over the vesting period.

Taxation

Tax payable on profits and deferred tax are recognised in the income statement except to the extent that they relate to items that are recognised in equity, in which case the tax is also recognised in equity.

Deferred tax is provided in full, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred tax is determined using tax rates and laws that are expected to apply when a deferred tax asset is realised, or when a deferred tax liability is settled.

Deferred tax assets, including the tax effects of income tax losses available for carry forward, are only recognised where it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax is not provided on temporary differences arising from investments in subsidiary undertakings and associated undertakings, unless the timing of the reversal of the temporary difference is controlled by a third party or it is probable that the difference will reverse in the foreseeable future.

Dividends

Dividends on ordinary shares are recognised in equity in the period in which they are declared by the Company's Board of Directors.

Provisions and contingencies

Provisions are recognised only when the Company has a present obligation (legal or constructive) as a result of past events. In addition, it must be probable that a transfer of economic benefits will be required to settle the obligation, and it must also be possible to make a reliable estimate of the amount of the obligation.

Notes to the financial statements

(forming part of the financial statements)

Contingent liabilities are possible obligations arising from past events whose existence will be confirmed by one or more uncertain future events not wholly within the Company's control, or present obligations that are not recognised either because it is not probable that an outflow of resources will be required to settle the obligation, or the amount of the obligation cannot be reliably estimated. Contingent liabilities are disclosed unless the possibility of a transfer of economic benefits is remote.

Accounting judgements and estimates

The preparation of financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the accounting policies.

Valuation of financial assets and liabilities

Fair value is the price that would be received on selling an asset or paid to transfer a liability in an orderly transaction between market participants. For financial instruments carried at fair value, market prices or rates are used to determine fair value where an active market exists (such as a recognised exchange), as this is the best evidence of the fair value of a financial instrument. Market prices are not, however, available for certain financial assets and liabilities held or issued by the Company. Where no active market price or rate is available, fair values are estimated using present value or other valuation techniques, using inputs based on market conditions existing at the balance sheet date.

A description of the valuation techniques used, analysis of assets and liabilities carried at fair value by valuation hierarchy, and a sensitivity analysis of valuations not primarily based on observable market data, is provided in note 3 to the financial statements.

Pensions

The defined benefit obligation is calculated by independent actuaries using the projected unit credit method. There is significant judgement involved in selecting appropriate measurement bases for the actuarial assumptions used to measure the pension liability.

There is also estimation uncertainty relating to the assumptions, as reasonable alternative assumptions could have led to measurement at a materially different amount. The key assumptions within this calculation are discount rate, inflation rates and mortality rates. These are set out in note 22, together with sensitivity analysis that shows the effect that these estimates can have on the carrying value of the pension liability.

There is also significant judgement around the valuation of the subset of the unquoted pension assets. Since these assets are not valued as of the balance sheet date due to the unavailability of their current value, the most recent valuation is used, adjusted to account for known cash flow movements.

Impairment of financial assets

The Company recognises expected credit losses for all financial assets recognised at amortised cost and for debt instruments that are measured at FVOCI.

The accuracy of any ECL allowance subsequently made depends on how accurately the Company estimates future cashflows for specific counterparties, particularly the fair value of any collateral, and the model assumptions and parameters used in determining provisions. While this necessarily involves judgement, the Company believes that its allowances and provisions are reasonable and supportable.

Deferred tax

Deferred tax assets, including those in relation to tax losses carried forward, are only recognised where it is probable that future taxable profits will be available against which the temporary differences can be utilised. As part of the assessment of recoverability of deferred tax as at the balance sheet date, and using medium-term profit forecasts, the Company expects sufficient taxable profits to arise to utilise the deferred tax assets.

Notes to the financial statements

(forming part of the financial statements)

IFRS 16

All contracts are reviewed for evidence that they contain a lease. The calculation of the right of use asset and reciprocal liability includes management assumptions on the Group's incremental borrowing rate and any lease terms which include optional lease periods. Further information is set out in notes 18 and 19.

2 Financial risk management

2.1 Key risks in using financial instruments

The key risks arising from the Company's activities involving financial instruments are as follows:

- Credit risk – the risk of loss arising from client or counterparty default;
- Market risk – exposure to changes in market variables such as interest rates, currency exchange rates, equity and debt prices; and
- Liquidity and funding risk – the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

2.2 Credit risk

Credit risk arises from all exposures to clients and counterparties relating to the Company's lending and investment activities. Limits on credit risk are set by the R&Co Group Executive Committee and overseen by the R&Co Group Credit Committee. The Credit Committee reviews concentrations and makes recommendations on credit decisions to the R&Co Group Assets and Liabilities Committee. Credit risk limits are set, where appropriate, in respect of exposures to individual clients or counterparties, to industry sectors and to countries.

Exposure to credit risk is managed by detailed analysis of counterparty creditworthiness prior to entering into an exposure, and by continued monitoring thereafter. A significant proportion of the Company's non-group lending exposures is secured on property or other assets and the Company monitors the value of this collateral. For internal monitoring purposes, credit exposure on loans and debt securities is measured as the principal amount outstanding plus accrued interest. Credit exposure on derivatives is measured as the current replacement value plus an allowance for the potential change in replacement value.

The Company recognises expected credit losses for all financial assets recognised at amortised cost and for debt instruments that are measured at FVOCI. No impairment loss is recognised on equity investments.

IFRS 9 outlines a three-stage model for impairment based on changes in credit quality since initial recognition as summarised below:

- A financial instrument that is not credit-impaired at the reporting date and on which credit loss has not increased significantly since initial recognition is classified as Stage 1 and its ECL is measured at expected credit losses over the next 12 months.
- If a significant increase in credit risk since initial recognition is identified, the financial instrument is moved to Stage 2 but is not yet deemed to be credit impaired and its ECL is measured based on expected credit losses on a lifetime basis.
- A financial instrument that is deemed to be credit-impaired is moved to Stage 3 ECL is measured based on expected credit losses on a lifetime basis.

Notes to the financial statements

(forming part of the financial statements)

The Credit Committee reviews credit exposures on loans and debt securities on a quarterly basis using the following categories:

Category	Definition	ECL basis of measurement
Category 1	Exposures where the payment of interest or principal is not in doubt and which are not designated categories 2 to 5.	Stage 1
Category 2	Exposures where the payment of interest or principal is not in doubt, but which require closer observation than usual due to some deterioration in the position of the client, for example: poor trading results; difficult conditions in the client's market sector; competitive or regulatory threats; or the potential impact from currency or other factors.	Stage 2
Category 3	Exposures where there has been further deterioration in the position of the client. Although the exposure is not considered to be impaired, the relationship requires close monitoring by the front office team.	Stage 2
Past due but not impaired	Exposures that have failed to make a scheduled interest or principal repayment although full recovery is expected.	Stage 2
Category 4	Exposures that are considered to be impaired and which carry a provision against part of the loan. Some recovery is expected to be made.	Stage 3
Category 5	Exposures that are considered to be impaired and which carry a full provision. No significant recovery of value is expected.	Stage 3

Notes to the financial statements (forming part of the financial statements)

A Credit risk exposure

The tables below disclose the maximum exposure to credit risk at the reporting date for financial assets with significant exposure to credit risk, without taking account of collateral held or other credit risk mitigation. Accounts receivable are treated as past due when more than 90 days has elapsed since the invoice was issued.

	Stage 1	Stage 2		Stage 3			
	Category 1	Category 2	Category 3	Past due but not impaired	Categories 4 and 5	Expected credit loss	Total (net)

Notes to the financial statements

(forming part of the financial statements)

B Collateral

All third party commercial lending is secured. This collateral is split by type, as either specific or general.

Specific collateral is readily identifiable, the majority of which will be charges over property. If necessary, there is a realistic possibility of both taking possession of and realising the collateral.

General collateral will be more difficult to both identify and realise. It will usually be a general floating charge over the assets of a business and is typically attached to leveraged finance assets. It is not practicable to ascribe a specific value to this collateral.

Unimpaired loans (categories 1 to 3) are covered by both specific and general collateral. Unimpaired amounts covered by specific collateral include property lending of £nil. Where a loan is deemed to be impaired (category 4 and 5 assets), the level of the impairment charge is primarily driven by any expected shortfall in the collateral value, although it is also influenced by the ability of the borrower to service the debt.

Collateral is valued independently at the time the loan is made and periodically thereafter depending on the specific circumstances. Management are able to roll forward a valuation for reporting purposes via a combination of specific knowledge of the collateral, the market and the application of general indices.

The table below gives an estimate of the fair value of collateral, all of which is property related, that could be realised by the Company as security against exposures to customers that are individually impaired and past due but not impaired. There is no collateral recognised for other asset classes.

	Individually impaired	Individually impaired
	2024	2023
	£'000	£'000
Property	6,000	8,511
Amount of loans collateralised	10,000	15,437

Notes to the financial statements (forming part of the financial statements)

C Credit risk concentrations

The Company monitors concentrations of credit risk by geographic location and by industry sector. The following tables show an analysis of credit risk by location and by sector. The location for loans and advances is determined by reference to the location of the borrower, and debt securities are recorded based on the location of the issuer of the security.

Credit risk by location	UK and Channel Islands	Other Europe	US and Canada	Other	Total
	£'000	£'000	£'000	£'000	£'000
At 31 December 2024					
Cash and balances at central banks	3	-	-	-	3
Derivatives	-	-	-	-	-
Loans and advances - banks	13,685	116,474	6,271	-	136,430

Notes to the financial statements (forming part of the financial statements)

Financial and real estate sector exposures are analysed as follows:

	2024	2023
Financial sector	£'000	£'000
Short term interbank exposures	23,518	55,504
TOTAL	23,518	55,504

Short term interbank lending is held for liquidity management purposes.

	2024	2023
Real estate sector	£'000	£'000
Senior loans	5,704	8,840
TOTAL	5,704	8,840

D Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

	2024			2023		
	Gross amount of financial asset	Gross amount of financial liability offset	Net amount	Gross amount of financial asset	Gross amount of financial liability offset	Net amount
	£'000	£'000	£'000	£'000	£'000	£'000
Financial assets offset						
Loans and advances - banks	26,681	(24,482)	2,199	-	-	-
Loans and advances - others	136,146	(59,120)	77,026	150,078	(114,710)	35,368
Financial liabilities offset						
Due to Banks	-	-	-	28	(323)	(295)

2.3 Market risk

Market risk arises as a result of the Company's activities in interest rate, currency, equity and debt markets and comprises interest rate, foreign exchange and equity and debt price risk. Exposure to market risk continues to be small in relation to capital.

Limits on market risk exposure are set by the R&Co Group Assets and Liabilities Committee and are independently monitored.

Market risks associated with treasury and equity positions are set out below with a description of risk management and the levels of risk.

Notes to the financial statements (forming part of the financial statements)

Equities

The Company has exposure to equity price risk through holdings of equity investments (excluding pension assets). Each position is approved by senior management and is monitored on an individual basis. The table below shows the Company's equity price risk by location, excluding investments in money market funds which can be redeemed on demand (see note 12).

	UK £'000	Other Europe £'000	Total £'000
Equity price risk by location			
At 31 December 2024			
Equity investments	176,580	3	176,583
At 31 December 2023			
Equity investments	151,886	3	151,889

If the price of these equities were to fall by 5 per cent, then there would be a post-tax charge to the income statement of £689,000 and a post-tax charge to equity of £7,910,000 (2023: £755,000 and £6,588,000 respectively). Similarly, if the price of the equities were to rise by 5 per cent, then there would be a post-tax credit to the income statement of £689,000 and a post-tax credit to equity of £7,910,000 (2023: £755,000 and £6,588,000 respectively).

Currency risk

The table below summarises net exposure to foreign currency exchange rate risk measured by reference to the foreign currency exposures of monetary assets and liabilities after taking account of positions in derivatives. The net exposure reflects timing differences between the recognition of foreign currency revenues and subsequent hedging transactions.

	Long/(short) 2024 £'000	Long/(short) 2023 £'000
US\$	1,769	2,604
Euro	20,160	6,646
Other	1,981	(417)

If the value of these currencies fell by 5 per cent against sterling, then there would be a post-tax charge to the income statement of £897,000 (2023: charge of £331,000). There would be no material impact on equity.

If the value of these currencies rose by 5 per cent against sterling, then there would be a post-tax credit to the income statement of £897,000 (2023: credit of £331,000). There would be no material impact on equity.

Interest rate risk

The following table summarises exposure to interest rate risk by showing the impact on the fair value of interest-bearing assets and liabilities, and of interest rate derivatives, if base interest rates in each currency shown moved up or down by 1 per cent. This table includes all interest rate risk within the businesses, and the structural interest rate exposure that arises from the reinvestment of shareholders' funds.

Notes to the financial statements (forming part of the financial statements)

	Sterling £'000	Euro £'000
At 31 December 2024		
+ 1%	(187)	111
- 1%	187	(111)
At 31 December 2023		
+ 1%	(850)	441
- 1%	850	(441)

IBOR (Interbank Offered Rates) reform has resulted in certain interest rate benchmarks being phased out. EUR, GBP and CHF LIBOR were discontinued at the end of 2021 and USD LIBOR was discontinued in June 2023. The Company, via the Group ALCO which has oversight of the IBOR transition for the R&Co Group, evaluated the impact of this on its lending, borrowings and processes and given the nature of our business, no significant financial or operational effects resulting from IBOR transition have been noted. Lending facilities now reference SONIA (Sterling Overnight Index Average).

2.4 Liquidity risk

Liquidity risk is defined as the risk that an entity cannot meet its cash obligations as they fall due. Liquidity risk arises principally from the mismatch of contractual maturities of assets and liabilities inherent in the business, including contingent liabilities. The Company's policy is to ensure that it has sufficient resources to meet its financial commitments as they are expected to fall due and this is monitored on a daily basis. This is overseen by the NMR Balance Sheet and Treasury Committee which, along with approving the types of liquid assets held by the Company, monitors projected cash positions over the next 18 months.

The tables below analyse the Company's financial assets and liabilities based on contractual maturity, apart from the equity investments in the money market funds which can be called upon for settlement on demand. Loan commitments and guarantees are included at the earliest date they can be drawn down or called upon.

	Carrying Value £'000	Demand/ next day £'000	2 days - 3m £'000	3m - 1 yr £'000	> 1 year £'000	No fixed maturity £'000	Total £'000

Notes to the financial statements (forming part of the financial statements)

2.6 Capital management

The Company's capital management policy is to ensure that it is strongly capitalised and compliant with regulatory requirements. Furthermore, the Company's risk management processes are designed to ensure that all risks are identified and are covered by capital or other appropriate matters.

The FCA introduced a new set of regulatory rules for UK Investment firms with effect from 1st January 2022, named the Investment Firms Prudential Regime ('IFPR'). Under IFPR, NMR meets the balance sheet and revenue thresholds that make it a Large Non-SNI firm. The new prudential regime includes – inter alia – requirements for maintaining minimum levels of regulatory capital which are reported to the Financial Conduct Authority quarterly.

3 Fair value of financial assets and liabilities

Fair value is the price that would be received on selling an asset or paid to transfer a liability in an orderly transaction between market participants. For financial instruments carried at fair value, market prices or rates are used to determine that fair value where an active market exists (such as a recognised exchange), as this is the best evidence of the fair value of a financial instrument. Market prices are not, however, available for certain financial assets and liabilities held or issued by the Company. Where no active market price or rate is available, fair values are estimated using present value or other valuation techniques, using inputs based on market conditions existing at the balance sheet date. The valuation may be derived from quotations received from various sources. Where the market is illiquid, the quotations may not be supported by prices from actual market transactions.

Valuation techniques are generally applied to over the counter derivative transactions and unlisted debt and equity securities. The most frequently applied pricing models and valuation techniques use discounted cashflows. The values derived from modelling discounted cashflows are significantly affected by judgements and assumptions made concerning factors such as the amounts and timing of future cashflows, discount rates and credit quality.

The methods adopted to determine the fair value of each type of financial asset or liability are summarised below:

- **Cash and balances at central banks, loans and advances - banks and due to banks.** The fair values of these instruments are materially the same as their carrying values due to their short-term nature.
- **Loans and advances - other.** The fair values of loans and advances to customers are based on observable market transactions, obtained from market data providers where available. Where observable market transaction data is not available, fair value is estimated using valuation models that incorporate a range of input assumptions. These assumptions include estimates of current market pricing and valuations of collateral held, adjusted by appropriate indices.
- **Due to group companies.** The fair values of these instruments are determined by discounting the future cashflows at current market interest rates for instruments of similar remaining maturities, adjusted for the appropriate credit spread.
- **Other financial assets and liabilities.** Fair value is considered to be the same as carrying value for these assets due to their short-term nature.
- **Derivatives and debt and equity securities.** These are carried in the balance sheet at fair value, usually determined using quoted market prices or other observable inputs. Debt securities or unlisted equity securities for which no price is available are valued by discounting expected future cashflows at market interest rates adjusted for appropriate credit spreads or using other valuation techniques.

Notes to the financial statements

(forming part of the financial statements)

The fair values of financial assets and liabilities have been classified into a three level valuation hierarchy, whereby the valuation level is determined using the following criteria:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from market data to a significant extent).

Level 3: Inputs for the asset or liability that are not based primarily on observable market data (unobservable inputs). Typically, this will be used for instruments with uncertain cashflows and the valuation will therefore depend upon the expected cashflows, estimated maturity and the discount factor used.

Financial assets and liabilities carried at amortised cost

TOTAL	227,168	93,676	1,736	131,756

Assets measured at fair value based on Level 3

There were no significant transfers between assets valued at Level 1 and at Level 2 in the period. The movements in assets valued using Level 3 valuation are as follows:

	2024	2023
Equity securities	£'000	£'000
Opening balance	131,756	184,224
Total gains / (losses):		
- through other comprehensive income	26,448	(52,468)
CLOSING BALANCE	158,204	131,756

The table below sets out information about significant unobservable inputs used at 31 December 2024 in measuring financial instruments categorised as Level 3 in the fair value hierarchy:

Description	Fair value £'000	Valuation technique	Unobservable input	Fair value measurement sensitivity to unobservable inputs
Equity securities – fair value through OCI	158,204	External valuation based on asset value	Value of underlying property based on market yields	Increase in initial yield of 0.1% would give rise to a decrease in fair value of £4.4m

Notes to the financial statements (forming part of the financial statements)

4 Net fee and commission income

	2024	2023
	£'000	£'000
Fee and commission income		
Global Advisory fees received	480,144	412,975
Banking and credit related fees and commissions	89	175
TOTAL	480,233	413,150
Fee and commission expense		
Global Advisory fees payable	56,999	76,154
Other fees paid	170	277
TOTAL	57,169	76,431

Global advisory fees payable represent fees paid to other members of the R&Co Group where the Company has worked in collaboration with another group company on a transaction.

5 Net interest income

	2024	2023
	£'000	£'000
Interest income		
Interest earned on loans and advances	15,121	18,461
Interest earned on investment securities measured at amortised cost	2,463	1,632
Interest earned on other financial assets measured at fair value through profit and loss	3,301	3,873
TOTAL	20,885	23,966
Interest expense		
Interest on amounts due to banks and customers	5,020	7,217
Interest on lease liabilities	8,335	7,795
TOTAL	13,355	15,012

Included within interest income is £74,000 (2023: £397,000) in respect of interest income accrued on impaired financial assets.

6 Dividend income

	2024	2023
	£'000	£'000
Dividends from subsidiary undertakings	13,230	50,293
Dividends from other group companies	-	10,946
Dividends from investments measured at fair value through profit and loss	4,297	4,454
TOTAL	17,527	65,693

Notes to the financial statements (forming part of the financial statements)

7 Other operating income

	2024 £'000	2023 £'000
Other operating income		
Rental income	80	66
Equities designated as fair value through profit and loss – net change in fair value	1,671	2,718
Foreign exchange (losses) / gains	(195)	236
TOTAL	1,556	3,020

8 Recharges to other group companies

	2024 £'000	2023 £'000
Recharges to other group companies	52,129	-

Recharges to other group companies are disclosed separately for 2024. In the prior year, these recharges were net against Operating expenses.

9 Operating expenses

	Note	2024 £'000	2023 £'000
Staff costs	10	333,606	310,565
Administrative expenses		47,114	46,789
Less: recharges to other group companies		-	(45,749)
TOTAL		380,720	311,605

Recharges to other group companies are disclosed in Recharges to other group companies for 2024. In the prior year, these recharges were net against Operating expenses.

The auditor's remuneration was as follows:

	2024 £'000	2023 £'000
Audit fees relating to the Company	461	437
Audit fees relating to subsidiary undertakings and other affiliates	50	92
TOTAL	511	529

Remuneration payable to the auditor and its associates for non-audit work was as follows:

	2024 £'000	2023 £'000
Audit-related assurance services	75	69
Other services	21	-

Notes to the financial statements (forming part of the financial statements)

TOTAL		96	69
10 Staff costs			
	Note	2024 £'000	2023 £'000
Fixed and variable remuneration		274,009	257,573
Social security costs		37,509	35,535
Staff benefits and other staff costs		17,197	15,078

The average number of persons employed was as follows:

	2024	2023
Global Advisory	552	606
Support	366	355
TOTAL	918	961

Deferred remuneration and share-based payments

As part of its variable pay strategy, the Company operates various incentive schemes for the benefit of employees. These schemes consist of deferred cash bonuses and, for certain key staff, various deferred share-based payment awards.

The cash awards are paid one, two and three years after the year of the award, and the expense is recognised over the two, three and four year periods from the start of the year of the award to the date of payment. These awards are paid on the condition that the recipient is still an employee of the R&Co Group.

A commitment to employees exists in connection with deferred remuneration. Some of this has not yet accrued because it relates to a future service period. The amount of potential future payments that have not yet accrued is £48,586,000 (2023: £41,100,000).

The objective of the deferred share-based payment awards is to link the reward of certain key staff with the performance of the Company. In addition to the requirement to remain employed by the R&Co Group, these awards may also be cancelled under specific circumstances.

Notes to the financial statements (forming part of the financial statements)

The terms of the different share-based payment awards are as follows:

Rothschild & Co equity scheme

Rothschild & Co granted options in Rothschild & Co shares to a number of key staff. Under the equity scheme rules, the equity scheme participants were required to invest in Rothschild & Co shares and, for each share owned, Rothschild & Co granted four share options. Shares invested in were subject to a four-year lock-up period and the share options granted were subject to a vesting period before exercise. A quarter of the share options vest on each of the third, fourth, fifth and sixth anniversaries of the equity scheme and the share options are exercisable on the vesting dates, but not later than the tenth anniversary of the award, at various prices according to when the options were issued.

Movements in the number of share options outstanding are as follows:

	2024		2023	
	Number	Weighted average exercise price €	Number	Weighted average exercise price €
At beginning of period	-	-	1,305,000	27.04
Issued	-	-	-	-
Forfeited	-	-	-	-
Expired	-	-	-	-
Cancelled	-	-	-	-
Exercised	-	-	(1,305,000)	27.04
AT END OF PERIOD	-	-	-	-
Exercisable at the end of the period	-	-	-	-

All remaining share options were exercised during 2023 following the decision of Rothschild & Co Concordia SAS, the holding company of the Rothschild family and the largest shareholder of Rothschild & Co, to file a simplified tender offer for all Rothschild & Co shares.

Rothschild & Co share-based payments

The Company committed to pay a number of staff deferred awards in the form of Rothschild & Co shares. The shares were to be delivered to employees as long as the recipients were still employed by the R & Co Group at the time of vesting. The value of the shares at the date of award is expensed over the service period, until vesting. The liability is treated as either a cash or equity-settled share-based payment and revalued at each reporting period, with the changes in value recognised in the income statement. The total expense recognised for the period arising from share-based payment transactions is £2.7m (2023: £2.7m).

In February 2023, as a result of the proposed offer for the Rothschild & Co shares, the R&Co Group decided it could no longer operate an effective equity-settled non-cash instrument award scheme, so it informed affected employees that existing non-cash instrument awards would be settled in cash. In accounting terms, these changes make these instruments cash-settled, whereas they were previously equity-settled with the on-balance sheet portion of the commitment in equity. The accounting policy is to revalue amounts in equity to their fair value before they are transferred to the balance sheet, as a liability. The liability for a cash-settled award subsequently moves in line with the underlying share value, with differences booked in the income statement.

Notes to the financial statements (forming part of the financial statements)

All non-cash instrument awards made in 2023 and in future years are being made in the form of notional shares (both deferred and non-deferred), which track the value of Rothschild & Co shares and will be settled in cash.

11 Tax

Tax charged to the income statement:

	2024 £'000	2023 £'000
Current tax:		
- Current year	24,713	13
- Prior year adjustments	(994)	(249)
Total current tax	23,719	(236)
Deferred tax:		
- Origination and reversal of timing differences	(1,148)	9,108
- Prior year adjustments	1,114	266
Total deferred tax	(34)	9,374
TOTAL TAX CHARGED TO INCOME STATEMENT	23,685	9,138

Tax on items credited to other comprehensive income:

	2024 £'000	2023 £'000
Deferred tax on securities measured at fair value through OCI	(32)	-
Current tax on securities measured at fair value through OCI	25	24
Deferred tax on actuarial gains and losses on defined benefit pension schemes	5,766	(11,706)
TOTAL TAX (CREDITED) / CHARGED TO OTHER COMPREHENSIVE INCOME	5,759	(11,682)

Tax on items credited to equity:

	2024 £'000	2023 £'000
Current tax on distributions to holders of perpetual instruments	(4,140)	(3,652)
Current tax on exercise of share options	-	(4,219)
Current tax on IFRS 9 transition	-	(6)
Deferred tax on IFRS 9 transition	7	(1)
Current tax on right of use assets	(341)	(320)
Current tax prior year adjustment on carried forward interest allowance	(1,252)	-
Current tax prior year adjustment on share options	(160)	
Deferred tax on right of use assets	341	320
Deferred tax credit on carried forward interest allowance	952	(952)
Deferred tax on valuation of share options	-	2,524
	(4,593)	(6,306)

Notes to the financial statements (forming part of the financial statements)

For the purposes of these financial statements, it has been assumed that not all of the interest borne by the Company is tax deductible.

The tax charged on income differs from the theoretical amount that would arise using the standard tax rate as follows:

	2024 £'000	2023 £'000
Profit before tax	103,574	88,536
Tax calculated at the UK corporation tax rate of 25% (2023:25%)	25,894	22,134
Adjustment to tax charge in respect of prior years	123	17
Impact on deferred tax of corporation tax rate change	-	(850)
Non tax deductible expenses	978	1,769
Group dividends not subject to tax	(3,308)	(14,391)
Irrecoverable dividend withholding tax	1	1,850
Impact of changes in tax rates	-	(1,328)
Other	(3)	(63)
TOTAL TAX CHARGED TO INCOME STATEMENT	23,685	9,138

Further information about deferred tax is presented in note 21.

12 Loans and advances

	2024 £'000	2023 £'000
Loans and advances - banks:		
Included in cash and cash equivalents - group	32,250	50,432
Included in cash and cash equivalents – other	23,517	55,504
Other – group lending	80,663	65,871
TOTAL	136,430	171,807

	2024 £'000	2023 £'000
Loans and advances - other:		
Loans and advances to group companies	202,010	169,176
Loans and advances – other customers	12,792	18,634
Allowance for credit losses - other	(6,056)	(9,042)
TOTAL	208,746	178,768

All loans and advances are measured at amortised cost less allowances for credit losses.

Loans and advances to and amounts due to certain group companies are subject to legally binding netting agreements and are thus reported net. The amount netted at 31 December 2024 was £83,602,000 (2023: £115,033,000).

Notes to the financial statements (forming part of the financial statements)

The movement in the allowance for credit losses on loans and advances to customers is as follows:

	Stage 1 12 month ECL £'000	Stage 2 Lifetime ECL £'000	Stage 3 Lifetime ECL (impaired assets) £'000	Total £'000
At 1 January 2024	31	500	8,511	9,042
Charge/(credit) to income statement	25	-	1,204	1,229
Transfer	-	(500)	500	-

Reversal of impairment	-	4,616
Movement in accrued interest	43	164
AT END OF YEAR	337,049	279,870

14 Derivatives

The Company's use of financial instruments, including derivatives, is set out in note 2. A derivative is a financial instrument, the value of which is derived from the value of another financial instrument, an index or some other variable ("the underlying"). Typically, the underlying is an interest rate, a currency exchange rate or the price of a debt or equity security. Derivative instruments are carried at fair value, shown in the balance sheet as separate totals of positive fair values (assets) and negative fair values (liabilities). Positive fair values represent the cost to the Company of replacing all transactions with a fair value in the Company's favour if the counterparties default. Negative fair values represent the cost to the Company's counterparties of replacing all their transactions with the Company with a fair value in the counterparties' favour if the Company were to default. Positive and negative fair values on different transactions are only netted if there is a legal right of set-off, the transactions are with the same counterparty and the cashflows will be settled on a net basis. Changes in fair values of derivative instruments are recognised in other income.

During the year, the Company has only entered into forward foreign exchange contracts.

	Notional principal		Positive fair value		Negative fair value	
	2024 £'000	2023 £'000	2024 £'000	2023 £'000	2024 £'000	2023 £'000

21 Deferred income taxes

Deferred taxes are calculated on all temporary differences under the liability method using tax rates that have been substantively enacted at the balance sheet date and that are expected to apply when the temporary difference is realised. The current UK corporation tax rate is 25 per cent and is reflected in the carrying value of deferred tax. The movement on the deferred tax account is as follows:

	2024 £'000	2023 £'000
At beginning of year	(2,361)	(2,802)
Recognised in income		
Income statement charge	34	(9,374)
Recognised in equity		
Defined benefit pension arrangements	(5,766)	11,706
Debt and equity securities		
- fair value measurement	32	-
Valuation of share options	-	(2,524)
Carried forward interest allowance	(952)	952
Other	(10)	1
IFRS 9 & 16 transition	(341)	(320)
AT END OF YEAR	(9,364)	(2,361)

Deferred tax assets less liabilities are attributable to the following items:

	2024 £'000	2023 £'000
Accelerated tax depreciation	417	1,245
Deferred profit share arrangements	31,391	30,014
Pension and other post-retirement benefits	(46,407)	(40,123)
Debt and equity securities	(90)	(122)
Right of use asset	5,310	5,651
Carried forward interest allowance	-	952
Other temporary differences	15	22
TOTAL	(9,364)	(2,361)

The deferred tax charge in the income statement comprises the following temporary differences:

	2024 £'000	2023 £'000
Accelerated tax depreciation	(828)	(432)
Deferred profit share arrangements	1,380	(6,244)
Pensions and other post-retirement benefits	(518)	(2,698)
TOTAL	34	(9,374)

Notes to the financial statements

(forming part of the financial statements)

Pillar Two income taxes legislation has been enacted in France, where the group's parent company, Rothschild & Co SCA, is incorporated. The legislation was effective from 1 January 2024. Under the legislation, the parent company will be required to pay, in France, top-up tax on profits of its subsidiaries that are taxed at an effective tax rate of less than 15 per cent. No top-up tax is due in the group's UK entities.

At the reporting date, the company has no unused cumulative disallowed net interest expense carried forward (2023: £8.9m) available to be reactivated against historically disallowed interest. Therefore, no deferred tax asset has been recognised in respect of disallowed net interest expense.

22 Defined benefit pension plans and other post-retirement benefits

The Company operates a pension scheme, the NMR Pension Fund ("the UK Fund"), for the benefit of employees of the Company as well as certain other R&Co Group companies in the United Kingdom. The Fund comprises a defined benefit section, which closed to new entrants in April 2003, and a defined contribution section established with effect from April 2003.

The R&Co Group also operates a separate pension arrangement, The NMR Overseas Pension Fund ("the Overseas Fund" – which together with the UK Fund are referred to below as "the Funds") that shares risks between entities within the group. The Overseas Fund comprises a defined benefit section and defined contribution section, both of which were closed to accrual in April 2017. The R&Co Group policy for allocating to individual entities in the Overseas Fund is based on the share of liabilities relating to employees/former employees of each participating group company.

The Company also has £510,000 (2023: £675,000) of unfunded obligations in respect of pensions and other post-retirement benefits.

Amounts recognised in respect of the various post-retirement schemes at the balance sheet date were as follows (N.B. For the Overseas Fund, all amounts shown relate to the share of obligations and assets allocated to the Company):

	UK Fund £'000	Overseas Fund £'000	Unfunded obligations £'000	Total £'000
At 31 December 2024				
Present value of obligations	(557,998)	(18,999)	(510)	(577,507)
Fair value of plan assets	735,293	27,837	-	763,130
Net defined benefit asset/(liability)	177,295	8,838	(510)	185,623
At 31 December 2023				
Present value of obligations	(625,966)	(21,442)	(675)	(648,083)
Fair value of plan assets	779,339	29,234	-	808,573
Net defined benefit asset/(liability)	153,373	7,792	(675)	160,490

For the Funds, benefits are based on actual service and final pensionable salary. The weighted average duration of the expected benefit payments from the UK Fund is 13.1 years and 12.9 years for the Overseas

Notes to the financial statements (forming part of the financial statements)

Fund. The Funds are approved by HMRC for tax purposes (the UK Fund is a Registered Scheme and the Overseas Fund is a Section 615 Scheme) and are operated separately from the Company and managed by independent trustees. The trustees are responsible for payment of the benefits and management of the Funds' assets. The Funds are subject to UK funding regulations, which require the Company and trustees to agree a funding strategy and, if necessary, a contribution schedule.

As with most defined benefit schemes, the Funds expose the Company to a number of risks including longevity, inflation, interest rate and investment performance. These risks are mitigated to an extent by investing in a diversified selection of asset classes, which aims to reduce the volatility of returns and also achieves a level of matching with the underlying liabilities. Overall, the objective for the Funds is to select assets which will generate income and capital growth to meet, together with new contributions (as necessary), the cost of current and, in the case of the UK Fund, future benefits payable by the Funds.

The matching assets that the Funds invest in include corporate bonds, government securities and a specific liability driven investment ("LDI") mandate. The objective of the liability-driven investment mandate is to provide a portfolio of assets that mirror the sensitivity of the Funds' liabilities to changes in interest rates and inflation. For the purposes of efficient portfolio management, the mandates make use of derivative instruments (such as interest rate swaps, inflation swaps and gilt repo), which require collateral to be posted in the event that they have a negative mark to market value. During the year, the Trustee of the UK and Overseas Funds reviewed the level of interest rate and inflation hedging for the funds. Following this review, it was agreed that both Funds would instruct their LDI manager to target a level of hedging of 100% of interest rate sensitivity (excluding the hedging provided by Secure Income Assets) and 100% inflation sensitivity against the Funds' long-term funding targets.

A key risk of using liability-driven investment mandates is that, when interest rates rise, the UK and Overseas funds are required to meet collateral calls. If at some point either of the Funds was unable to do so, it could be forced into reducing its level of hedging. In order to mitigate this risk, the trustees monitor the level of leverage and collateral headroom within each Funds' liability-driven investment portfolio and holds regular discussions with the investment manager and the Funds' investment consultant. The trustees note that the Funds have a relatively low level of leverage compared to many other pension schemes and were not forced to reduce hedging during the second half of 2022 when UK Government yields rose significantly.

The latest formal actuarial valuations of the Funds were carried out as at 31 March 2022 and have been rolled forward for IAS 19 purposes to 31 December 2024 by qualified independent actuaries. As required by IAS 19, the values of the defined benefit obligation and current service cost have been measured using the projected unit credit method. The net charge to the income statement comprises current service cost, the net interest charge on the net defined benefit liability and administration expenses relating to the management of the pension funds. Remeasurement gains and losses are recognised in full, in the period in which they occur, outside the income statement and presented in other comprehensive income.

Notes to the financial statements (forming part of the financial statements)

The principal actuarial assumptions used in respect of all post-retirement schemes as at the balance sheet date were as follows:

	2024	2023	2022
Discount rate	5.50%	4.50%	4.80%
Retail price inflation	3.10%	3.00%	3.20%
Consumer price inflation	UK 2.4% Overseas 2.3%	UK and Overseas 2.2%	UK 2.4% Overseas 2.3%
Expected rate of capped salary increases	2.00%	2.00%	2.00%
Expected rate of increase in pensions in payments:			
Capped at 5.0% per annum	3.00%	2.90%	3.10%
Capped at 2.5% per annum	2.10%	2.00%	2.10%
Life expectancy of a pensioner aged 60:			
Male	28.4	28.4	28.8
Female	30.1	29.9	30.3
Life expectancy of a future pensioner aged 60 (in 20 yrs)			
Male	29.8	29.7	30.1
Female	31.4	31.3	31.6

The CPI inflation assumption is set by assuming it is a fixed amount lower than RPI. Following the Government announcement on 25 November 2020 regarding the future of the Retail Prices Index, the CPI assumption has been set using a different fixed amount before and after 2030. The gap between RPI and CPI is assumed to be 1.1% pa up to 2030 and 0.1% pa thereafter. The figures shown in the table are weighted averages at each date.

The defined benefit liability calculation is sensitive to the actuarial assumptions used above. Those that have the most significant impact on the measurement of the liability are as follows, along with an illustration of the sensitivity of the net liability of the UK Fund to those assumptions:

	2024	2023
	£'000	£'000
0.5% increase in discount rate	(31,700)	(39,700)
0.5% increase in price inflation	22,900	29,400
1 year increase in life expectancy	17,200	20,200

The sensitivities shown above reflect only an estimate of the change in the assessed defined obligation for the UK Fund. In practice, any movement leading to a change in the discount rate or price inflation is likely to be partially offset by a change in asset values, and the corresponding overall impact on the net asset is therefore likely to be lower than the amounts above.

Notes to the financial statements

(forming part of the financial statements)

An illustration of the sensitivity of the net liability of the Overseas Fund to actuarial assumptions is shown below:

	2024 £'000	2023 £'000
0.5% increase in discount rate	(1,071)	(1,338)
0.5% increase in price inflation	803	1,032
1 year increase in life expectancy	574	688

The movement in the net defined benefit asset is as follows:

	Plan assets £'000	Defined benefit obligations £'000	Net defined benefit asset £'000
At 1 January 2024	808,573	(648,083)	160,490

TOTAL	379,841	399,498	8,662	20,572	808,573
--------------	----------------	----------------	--------------	---------------	----------------

Equities includes £nil (2023: £nil) of shares in companies that are related parties of the Company.

Amounts recognised in the income statement are as follows:

	Note	2024 £'000	2023 £'000
Employers' part of current service cost		1,597	1,441
Net interest cost		(7,224)	(9,576)
Administration expenses		1,800	1,968
TOTAL (INCLUDED IN STAFF COSTS)	10	(3,827)	(6,167)

Amounts recognised in the statement of comprehensive income:

	2024 £'000	2023 £'000
Actuarial (losses) / gains recognised in the period	23,064	(46,824)
Cumulative actuarial losses recognised in the statement of comprehensive income	(29,676)	(52,740)

As part of the March 2022 triennial actuarial valuations of the UK and Overseas Funds it was agreed that all employer contributions would cease to both schemes with effect from 30 June 2023, subject to the funding position being reviewed on a quarterly basis. Other than in respect of expenses incurred before this date and obligations under the previous schedule of contributions, no contributions have been paid in respect of the defined benefit section to either fund since 30 June 2023.

During the last quarter of 2024, the UK Fund made contributions from its surplus assets to fund the defined contribution section of this scheme. The amount it paid in the year was £1.8m (2023: nil). This is in line with the Schedule of Contributions and Contingency Plan agreed during the year

The Company has assessed that no further liability arises and a surplus can be recognised under IFRIC 14 IAS 19 - The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction. This conclusion was reached because the trustees of the Funds do not have a unilateral power to wind up the Funds and the Funds' rules allow the Company an unconditional right to a refund assuming the gradual settlement of plan liabilities over time until all members have left the Funds.

The Company is aware of recent litigation concerning the application in the UK of section 37 of the UK's Pension Schemes Act 1993 to certain historic rule amendments and the trustees of the UK Fund have received detailed legal advice on this matter. The trustees have reviewed whether any positive steps are necessary to investigate past actuarial confirmations in relation to any relevant historic changes to the UK Fund's benefits. They have noted that the UK Fund has been stable and professionally advised throughout the relevant period, and there is no reason to believe that the actuarial confirmations required by section 37 have not been properly obtained. Their legal advice supports this. Given these circumstances, the Company does not believe that it needs to take any additional action in relation to this matter. The Company continues to monitor developments in this area.

Defined contribution schemes

	Note	2024 £'000	2023 £'000
--	------	---------------	---------------

Undrawn formal standby facilities, credit lines and other commitments to lend	8,117	67,775

From time to time the Company is involved in judicial proceedings or receives claims arising from the conduct of its business. Based upon available information and, where appropriate, legal advice, provisions are made where it is probable that an outflow of resources will be required, and the amount can be reasonably estimated.

24 Operating lease receivables
