Global Community Investment Ambition and Strategy

The ambition

Our ambition is to raise and realise the aspirations of young people from disadvantaged backgrounds.

The strategy

Offering a combination of skills-based employee volunteering and strategic financial contributions we pursue long term partnerships with charities, educational establishments and social enterprises which share our goals.

The delivery

We focus on helping disadvantaged young people to develop the skills that will help them to succeed at school and in the workplace, and on instilling in them the confidence to be more ambitious.

In addition, we use our advisory skills to help social enterprises whose aims are aligned with ours to develop and transform their business models.

The outcome

- Disadvantaged young people are helped to develop skills and make more ambitious educational choices and enter employment or training.
- Employees develop a range of personal and professional skills and report an increase in job satisfaction and pride in working for Rothschild.
- By demonstrating our commitment to addressing a critical social issue, and by enabling our employees to play a role within this, we are true to our guiding principles.
- We are a firm that is respected by clients and the community
