Eurozone Equity SICAV

SFDR
 Article **9**
COUNTRY OF REGISTRATION  **FR**  **CH**  **ES**  **IT**  **LU**  **NL**

INVESTMENT OBJECTIVE

The objective of the fund is to achieve a performance net of management fees above that of the Euro Stoxx® DR (C), by being permanently invested and with at least 90% of its assets exposed to one or more markets of equities issued in one or more countries of the eurozone. The fund implements a socially responsible investment approach and a steering of carbon intensity (i) to at least 20% below that of the benchmark index, and (ii) in line with a downward trajectory of 7% per year, established at the end of each financial year, with 31 December 2019 as the reference date. Since that date, the stock selection process incorporates an ESG analysis of companies. The performances prior to this date were therefore achieved under conditions that are no longer relevant.

Characteristics

Legal		Risk level	
Legal form	SICAV	Lower risk 1234567 Higher risk	
Domicile	France	Potentially lower return Higher yield potential	
AMF Classification	Eurozone equities	The synthetic risk indicator shows the level of risk of this product compared to others. It indicates the probability that this product will suffer losses in the event of market movements or our inability to pay you.	
Share / Fund Currency	EUR	We have classified this product in risk class 5 out of 7, which is a medium to high risk class. This means that the potential losses associated with the future performance of the product are in the medium to high range and, should market conditions deteriorate, it is likely that our ability to pay you will be affected.	
Share Class Type	Accumulation	Other important risk factors not adequately covered by the indicator :	
Inception date	17/09/2021	Liquidity risk: Risk linked to the low liquidity of the underlying markets, which makes them sensitive to significant buying and selling movements.	
Class inception	18/09/2014	Impact of techniques such as derivatives: The use of derivatives can amplify the impact of market movement effects on the portfolio.

ESG Glossary

Carbon intensity

The carbon intensity of the portfolio is defined as the weighted sum, based on their weight in the portfolio, of the carbon intensities of the underlying assets within the portfolio's carbon pocket.

- Scope 1: direct GHG emissions from fixed or mobile installations controlled by the company.
- Scope 2: indirect emissions related to the production of imported electricity, heat, or steam for the organization's activities.
- Scope 3: indirect upstream and downstream emissions.

Science Based Targets initiative (SBTi)

Science Based Targets initiative is an international climate action organisation that develops standards, tools and advice that enable companies to set greenhouse gas (GHG) emission reduction targets based on climate science and what is needed to reach the target of net zero by 2050 at the latest.

- Target Set: Corporate targets are clearly defined and science based programmes to reduce greenhouse gas (GHG) emissions that have been reviewed and validated by SBTi. The objectives of these undertakings are expressed by temperature alignments.
- Committed: Commitments represent a company's intention to develop objectives and submit them for validation within 24 months. These companies do not yet have targets validated by SBTi.

Transition category "Asset Stranding"

Asset Stranding refers to assets that lose value due to a negative change in the market to which they are exposed (legislation, environmental constraints, technological breakthroughs) resulting in a significant devaluation (e.g. companies that own coal mines).

European Taxonomy

It is a standard common to the European Union, making it possible to determine the "sustainable" nature of an economic activity on the basis of standardised criteria, thus avoiding differences in measurement. Taxonomy alignment measures the contribution of an economic activity to six defined sustainability objectives: climate change mitigation and adaptation; sustainable use and protection of water and marine resources; transition to a circular economy; pollution prevention and control; and protection and restoration of biodiversity and ecosystems. Taxonomy alignment can be calculated as a share of a company's turnover (at a given time), but also as a share of its CapEx (forward-looking vision of the direction and trajectory initiated by the companies).

Water risk and opportunity management assessment

This is the assessment of companies' water risk and opportunity management practices. The Carbon Disclosure Project (CDP) rating system has 4 maturity levels:

- Leadership: best practices, transparency and performance
- Management: taking action to limit its impact
- Awareness: understanding, measurement and reporting
- Disclosure: start of the process
- Not assessed: lack of information for assessment

SFDR articles

- Article 6: the financial product does not necessarily promote ESG characteristics or have specific sustainable investment objectives.
- Article 8: the financial product promotes certain environmental and social characteristics.
- Article 9: the financial product has sustainable investment objectives.

Carbon intensity evolution

The carbon intensity of the portfolio is 48% lower than that of the Euro Stoxx® NR index as of 30/09/2025. As a result, the portfolio complies with the requirement to be at least 20% less carbon intensive than the index. Since the beginning of 2025, the portfolio's carbon intensity has fallen by 30,8%.

The weighting of the Construction, Utilities, Energy, Basic Materials and Chemicals sectors is 24,5% (on the basis of 24,9% invested rebased to 100% with the exclusion of cash and UCITS) vs. 18,7% within the index.

- Information for Swiss investors

The funds of Rothschild & Co Asset Management (hereinafter the "Funds") presented in this document are companies under French law. This fact sheet is not an invitation to subscribe to any of the Funds described herein; it does not replace the Fund's prospectus and is provided for information purposes only. This presentation does not constitute advice or a recommendation to subscribe to any Fund. Subscriptions shall be accepted, and shares or units shall be issued, only on the basis of the current version of the respective Fund's prospectus, as approved by FINMA. Any information imparted by this document is provided for information purposes only and has no contractual value. Past performance is not an indication of future performance. Furthermore, the commission levied for the issue and redemption of shares or units in the respective Fund shall be charged in addition. Rothschild & Co Asset Management makes no guarantee whatsoever in respect of trends in performance and may not be held liable for any decision taken on the basis of the information contained in this document.

Investing in one or more shares or units of a Fund involves risk. Rothschild & Co Asset Management recommends that subscribers request additional information, particularly with regard to the capacity of the Funds' characteristics to meet their needs, by calling the Funds' representative in Switzerland, as specified above, their usual financial advisor or Rothschild & Co Asset Management before deciding to invest.

Rothschild & Co Bank AG (Zollikerstrasse 181- CH-8034 Zurich - Switzerland) has obtained authorisation from FINMA to distribute the Funds to non-qualified investors in/or from Switzerland; Rothschild & Co Bank AG is also appointed as representative (the "Representative") and paying agent in Switzerland.

The Fund's Regulations or Articles of Association, Prospectus, Key Investor Information Documents and Annual and Semi-Annual Reports for Switzerland may be obtained free of charge from the Representative in Switzerland. Investors must familiarise themselves with the prospectuses before subscribing to the shares or units of any Fund whatsoever.

Announcements intended for investors in Switzerland concerning Rothschild & Co Asset Management or the Funds will be published on the electronic platform www.fundinfo.com, which is authoritative. The issue and redemption prices, or the net asset values marked "exclusive of commission", will be published every day on the electronic platform www.fundinfo.com.
