

Data Protection Notice with respect to the RSecure App

1. General

Rothschild Bank AG (the “Bank”) takes the protection of your personal data seriously and strictly adheres to the applicable Swiss data protection rules. This Data Protection Notice provides you with an overview of which type of data is being collected by the RSecure App and for what purpose.

2. What type of data is collected and how is it used?

Equipment details:

The RSecure App uses the unique device identification (IMEI) in order to prevent copying of the activation data. As a result, the RSecure App has access to this data. The data is not transmitted to the Bank but remains on the device itself.

Device camera:

The RSecure App requires access to the device camera in order to read the security image (QR code). The image data will neither be stored nor transmitted.

Login information:

The RSecure App saves your eAccess User ID, date and time of your login and displays this information upon your next login. The user number and login data are not transmitted to the Bank but remain on the device itself.

Activation key:

The RSecure App saves your initial and unique activation key displayed to you. The activation key data is not transmitted to the Bank but remains on the device itself.

3. Which data is transmitted to third parties?

The RSecure App does not transmit any personal data to third parties.

4. Information rights

Swiss data protection rules grant you the right to obtain information on the data stored about you. In case of any questions, please refer to
